

Meet Danno

I came to the Laramie area in 1981. Coming from a farming/ranching community in Eastern Washington State, Laramie was a very easy transition. The main reason I stayed here was the people and the abundance of outdoor recreation; it's a very easy going environment and everyone here is always ready to lend a hand.

I attended the University of Wyoming and graduated with a degree in business. I started performing on the acoustic guitar in 1989, got married.... Family And the rest is History !

I purchased my first home in Laramie the "Wyoming Way" in 1985 - I gave the guy \$300 and snowmobile for the down payment and he held the note. Times have changed! The days of deals with a man's good word and a handshake are gone. But that doesn't mean "making a deal" has to be a challenge today. I have been a licensed Realtor since 1997. My main goal as a Realtor and a person is Customer Service. If you are not satisfied and happy, I have not done my job! If you are looking for someone that starts every day with a smile, can accurately answer your questions and promptly return your phone calls and e-mails, I'd be happy to talk with you.
